MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT : Career Development Course #2 Progress

1. This is an informal summary report on the progress of the Career Development Course #2 for the first three months of operation.

2. The Course has gone exceptionally well. We have been able to meet all schedules on time and have encountered no conference room assignment difficulties. The class is an exceptional one in that one would think that of eleven "cream of the crop" types you would have at least one "clinker" and perhaps one "in orbit." This is not true of this class at all. They are all interested and rather eager, but quietly so. They are prompt, attentive and alert. I had scheduled a testing program of four separate evaluation papers (critique of presentations, summary of high points, etc.) and find that all have done very well, ranging, of course from "satisfactory" to "outstanding." (Note attached copies of memoranda to Directors).

3. I am pleased and impressed with the group. If the tempo and interest continues, these students should develop into valuable potential management types.

25X1 4. Thanks to the efforts of [redacted] the students were included in the [redacted] for the month of January. 25X1

25X1 5. Of particular interest are the two non-DD/S&T men, [redacted] who are really using excellent work. Their offices should be pleased with their performance.

6. Periodically, I shall make such summaries, both general and specific in nature, as events dictate.
